- **Are electronic devices and mobile phones permitted in the boarding areas, and how do students stay in touch with their parents?**

Yes, students may have devices and mobile phones. They can contact parents during a designated evening period. Social areas also include gaming devices for relaxation.

- **How will my child attend church or mosque services if clergy do not visit the campus?**

We arrange supervised visits to local churches and mosques. While we aim to support different denominations, we may not always be able to provide access to every specific place of worship.
